- Daily data feed
- Custom reporting
- Live maps and status
- Virtual ride-along
- Geofences
- Daily activity reports
- Long stop alerts
- Unauthorized vehicle use
- Fuel usage and efficiency monitoring
- Find closest / cheapest fuel notification
- Check engine light alerts
- Vehicle fault codes

Premium Add-On Features Available

Enhance your program with add-on features at preferred prices.

<i>Solution</i>	<i>Discounted Upfront Price</i>	<i>Discounted Monthly Price</i>
<p>Distracted Driving Mobile Application</p> <p>This mobile application enables customers to better manage distracted driving behavior of their mobile workforce. Capabilities differ by phone operating system. Policy monitoring is supported on Apple devices (you are able to view the phone usage) and policy enforcement is supported on Android devices (you are able to restrict phone usage in a highly configurable manner).</p>	N/A	\$2.25/driver
<p>Driver Identification Mobile Application</p> <p>This mobile application that enables customers to positively identify the mobile worker driving each vehicle. The mobile application communicates directly with the Azuga device in the vehicle to identify the driver without the driver needing to take any action other than to be logged on to the application.</p>	N/A	\$1.50/driver
<p>Driver Identification Beacon Card</p> <p>A credit card-sized plastic card identifies the worker driving each vehicle. The card identifies the driver by communicating a driver-specific code to the Azuga device in the vehicle via Bluetooth. No action is required by the driver other than to have the card present, typically in their wallet or employee badge holder.</p>	\$15.00	\$1.50/driver
<p>Roadside Assistance</p> <p>Delivered through a roadside service contractor, this program supports drivers with disabled vehicle events with services like towing, battery jump, tire change and more. Please refer to the datasheet for more information.</p>	N/A	\$2.50/vehicle
<p>Electronic Logs Application</p> <p>This utility supports customers whose drivers need to comply with government mandates regarding hours of service.</p>	N/A	\$17.00/driver

Solution

Discounted Upfront Price

Discounted Monthly Price

One-Minute Tracking

N/A

\$1.79/vehicle

This utility enables customers to achieve more frequent GPS location data to enhance their reporting and analytics data. This enhancement can be set at 60- or 30-second polling intervals.

Field Service Management

N/A

\$30/driver and \$50/user

Our FSM solution that supports a broad range of functionality including scheduling/dispatching, time management, work order management, contact management, billing management and more.

Azuga Coach

N/A

\$3.15/driver

Training videos are sent to any driver whose driver behavior the week prior put them in the risky driver zone. Tests need to be taken to measure comprehension after each lesson. Managers measure training compliance through the portal view.

Azuga SafetyCam Solution - Forward-Only or Dual-Facing Configuration

Pricing Option One: Camera included in service price

\$27.00/vehicle - power kit and cable required (\$30 per configuration)
- requires 36 month term contract

Pricing Option Two: Upfront Camera Purchase: \$155.00

\$23.00/vehicle - power kit and cables included
- requires 12 month term contract

Plug and play camera solutions use an OBD port power connector. SafetyCams enable customers to view live footage of road situations. Dual-facing cameras provide driver awareness at the point that a risky driving event occurred. Benefits are numerous: from driver coaching to liability protection through information obtained via video capture.

Azuga SafetyCam AI Solution -

Dual-Facing Configuration

\$220.00 (Camera Purchase) (\$29.00/vehicle per month)
-requires 12 month term contract
Aux Camera Purchase: \$75.00 (\$ 3.99/vehicle per month)

This premium utility includes all the benefits of our standard SafetyCam with AI that detects distracted driving events, giving even greater insight into driver behavior.
