NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of The Cincinnati Indemnity Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures Manual (NAIC SAP), version effective January 1, 2001 and updates through the current year have been adopted as a component of prescribed or permitted practices by the state of Ohio.

The Company has no prescribed or permitted practices that would result in differences between the NAIC SAP and the state of Ohio basis, as shown below as of March 31, 2020 and December 31, 2019:

F. Consolidated Federal Income Tax Return

1. The Company’s federal income tax return is consolidated with the following entities:

Cincinnati Financial Corporation (Parent)
The Cincinnati Insurance Company
The Cincinnati Life Insurance Company
The Cincinnati Casualty Company
The Cincinnati Specialty Underwriters Insurance Company
CFC Investment Company
CSU Producer Resources, Inc.
2. The method of allocation between the companies is subject to a written agreement, approved by the Board of Directors, whereby allocation is made primarily on a separate return basis, with the company receiving a current benefit for losses generated to the extent federal taxes are reduced for the consolidated tax group.

NOTES TO FINANCIAL STATEMENTS**G. Federal or Foreign Income Tax Loss Contingencies**

The Company did not have tax contingencies under the principles of SSAP No. 5, *Liabilities, Contingencies and Impairment of Assets*. This is subject to change but it is not expected to significantly increase in the 12 month period following the balance sheet date. The Company is primarily subject to examination by U.S. federal and various U.S. state and local tax authorities. The statute of limitations for federal tax purposes have closed for tax years 2015 and earlier. In 2019, the IRS began its examination of the tax year ended December 31, 2017 and has expanded to include tax year ended December 31, 2018. At this time, no adjustments have been proposed. The statute of limitations for state income tax purposes have closed for tax years 2015 and earlier.

H. The Company is not subject to Repatriation Transition Tax as outlined under the Tax Cuts and Jobs Act (TCJA).

I. There was \$0 of AMT Credit Carryforward as of the beginning of the year. In addition, there were no current year adjustments resulting in \$0 of AMT Credit Carryforward at the end of the year.

20. Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value

1. Included in various investment related line items in the financial statements are certain financial instruments carried at fair value. Other financial instruments are periodically measured at fair value, such as when impaired, or, for certain fixed maturities and preferred stock, when carried at the lower of cost or market.

The fair value of an asset is the amount at which that asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale. The Company does not have any material liabilities carried at fair value.

The Company has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level that is significant to the fair value measurement of the instrument.

Financial assets that fall within Level 1 and Level 2 are priced according to observable data from identical or similar securities that have traded in the marketplace. Also within Level 2 are securities that are valued by outside services or brokers where the Company has evaluated the pricing methodology and determined that the inputs are observable. Financial assets that fall within Level 3 of the hierarchy are valued based upon unobservable market inputs. Pricing for each Level 3 security is based upon inputs that are market driven, including third-party reviews provided to the issuer or broker quotes. However, the Company places in the Level 3 hierarchy securities for which it is unable to obtain the pricing methodology or it could not consider the price provided as binding. Management ultimately determines the fair value for each Level 3 security that it considers to be the best exit price valuation.

The Company primarily bases fair value estimates for investments in equity and fixed-maturity securities on quoted market prices or on prices from a nationally recognized pricing vendor, an outside resource that supplies global securities pricing, dividend, corporate action and descriptive information to support fund pricing, securities operations, research and portfolio management. The Company obtains and reviews the pricing service's valuation methodologies and related inputs and validates these prices by replicating a sample across each asset class using a discounted cash flow model. When a price is not available from these sources, as in the case of securities that are not publicly traded, the Company determines the fair value using various inputs including quotes from independent brokers. In these circumstances, the Company has generally obtained and evaluated two nonbinding quotes from brokers; its investment professionals determine the best estimate of fair value. The fair value of investments not priced by a pricing vendor is less than 1 percent of the fair value of the Company's total investment portfolio.

Financial instruments are categorized based upon the following characteristics or inputs to the valuation techniques:

- Level 1—Financial assets and liabilities for which inputs are observable and are obtained from reliable quoted prices for identical assets or liabilities in active markets. This is the most reliable fair value measurement and includes, for example, active exchange-traded equity securities.
- Level 2 – Financial assets and liabilities for which values are based on quoted prices in markets that are not active or for which values are based on similar assets and liabilities that are actively traded. This also includes pricing models for which the inputs are corroborated by market data. The technique used for the Level 2 fixed-maturity securities is the application of market based modeling. The inputs used for all classes of fixed-maturity securities listed in the table below include relevant market information by asset class, trade activity of like securities, marketplace quotes, benchmark yields, spreads off benchmark yields, interest rates, U.S. Treasury or swap curves, yield to maturity and economic events. Level 2 fixed-maturity securities are primarily priced by a nationally recognized pricing vendor.

NOTES TO FINANCIAL STATEMENTS

- Level 3—Financial assets and liabilities for which values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Level 3 inputs include the following:
 - Quotes from brokers or other external sources that are not considered binding;
 - Quotes from brokers or other external sources where it cannot be determined that market participants would in fact transact for the asset or liability at the quoted price; or
 - Quotes from brokers or other external sources where the inputs are not deemed observable.

Reclassification of certain financial instruments may occur when input observability changes. Reclassifications are reported as transfers into/out of the Level 3 category.

The following table presents the Company’s assets measured and reported at fair value by level within the fair value hierarchy as of March 31, 2020:

Assets at Fair Value:

	Level 1	Level 2	Level 3	Net Asset Value (NAV) Included in Level 2	Total

22. Subsequent Events

The Company has considered subsequent events through May 14, 2020, the date of issuance of these statutory financial statements. The World Health Organization declared the 2019 novel coronavirus (COVID-19) outbreak a Public Health Emergency of International Concern on January 30, 2020 and a pandemic on March 11, 2020. The pandemic has caused an economic downturn on a global scale including temporary closures of many businesses and reduced consumer spending due to shelter-in-place and other governmental regulations, as well as significant market disruption and volatility. The Company continues to monitor the impact of the pandemic as it unfolds. The Company cannot at this time predict the impact the pandemic will have on its future statements of assets, liabilities, surplus and other funds, statement of income, and cash flows. Our future financial results and operation depends in part on the duration and severity of the pandemic and what actions are taken to mitigate the outbreak.
