- Use of Estimates in the Preparation of the Financial Statements The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure В. of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. C.
 - Accounting Policies The Company uses the following accounting policies:
 - Not applicable. 1.
 - 2. Bonds are stated at amortized cost using the scientific method. 3. Not applicable.
 - 4. Preferred Stocks are stated in accordance with the guidance provided in SSAP No. 32R - Preferred Stock.
 - 5. Not applicable.
 - Loan-backed and structured securities are stated at amortized cost, except those with an NAIC "6" designation, which are stated at the lower of 6. amortized cost or fair value. The retrospective method is used to value securities of high credit quality. The reserve factors used to establish the resulting liabilities are periodically reviewed and any adjustments are reflected in the period determined.

 - The following table presents the aggregate total of all impaired loan-back and structured securities (fair value is less than cost or amortized cost) 4. for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

The aggregate amount of unrealized losses.	
1. Less than 12 months	\$27,831
2. 12 months or longer	\$429,155
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	\$3,739,266
2. 12 months or longer	\$12,645,869

- The Company performs a quarterly analysis to assess whether the decline in the fair value of any loan-backed or structured security is other-than-temporary. Factors considered in determining whether a decline in fair value is considered other-than-temporary include the length of time and the extent to which the fair value of the security has been below cost or amortized cost and changes in credit ratings of the issue during the period. The intent to sell, the intent and ability to hold the security for a period of time sufficient to recover its cost or amortized cost basis and the ability to recover all outstanding amounts when contractually due are also considered. The Company believes there were no indications of declines in fair value that were considered to be other-than-temporary for any loan-backed or structured securities with unrealized losses as of March 31, 2021.
