B. Use of Estimates in the Preparation of the Financial Statements – The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies – The Company uses the following accounting policies:

1. Not applicable.
  2. Bonds are stated at amortized cost using the scientific method.
  3. Not applicable.
  4. Preferred Stocks are stated in accordance with the guidance provided in SSAP No. 32 – Preferred Stock.
  5. Not applicable.
  6. Loan-backed and structured securities are stated at amortized cost, except those with an NAIC “6” designation, which are stated at the lower of amortized cost or fair value. The retrospective method is used to value securities of high credit quality. The prospective approach is used to value securities where collection of contractual cash flows is not probable or that are of lower credit quality.
  7. The Company’s investment in SCA entities are reported based on the underlying audited GAAP equity of the investee.
  8. The Company’s investment in limited liability entities are reported based on the underlying audited GAAP equity of the investee.
  9. Not applicable.
  10. Not applicable.
  11. Unpaid accident and health losses include an amount determined from individual case estimates and an amount based on historic experience, for pending losses and losses incurred but not reported. Such liabilities are based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the reserves established. The reserve factors used to establish the resulting liabilities are periodically reviewed and any adjustments are reflected in the period determined.
  12. The Company has not modified its capitalization policy from the prior period.
  13. Not applicable.

The aggregate amount of unrealized losses:		
1. Less than 12 months		\$1,705,202
2. 12 months or longer		\$275,054
The aggregate related fair value of securities with unrealized losses:		
1. Less than 12 months		\$22,833,433

Factors considered in determining whether a decline in fair value is considered other-than-temporary include the length of time and the extent to which the fair value of the security has been below cost or amortized cost and changes in credit ratings of the issue during the period. The intent to sell, the intent and ability to hold the security for a period of time sufficient to recover its cost or amortized cost basis and the ability to recover all outstanding amounts when contractually due are also considered. The Company believes there were no indications of declines in fair value that were considered to be other-than-temporary for any loan-backed or structured securities with unrealized losses as of September 30, 2020.
